

Roof Age LIFT™ for New Business and Renewals

Roof Age LIFT™ provides predictive data that enables carriers to more accurately apply a roof age onto new and existing policies. **Roof Age LIFT** helps carriers update and correct roof ages on renewals, and price more competitively from the very beginning on new policies. Resulting in both premium growth and improved loss avoidance.

Powerful Features & Benefits

BuildFax has the largest database of roof replacements in the country.

BuildFax can return values 100 % of the time on all U.S. addresses.

The product can be fully integrated into a carrier's quoting platform, with minimal IT involvement

Predictive data supplies an objective roof age. Avoid using Homeowner-Supplied Roof Age.
